CAREER SUMMARY

Meticulous Computer Engineering graduate with 5 years of manual software testing experience in Banking/Insurance, plus a strong background in technical logistics and hardware parameter testing. Skilled in translating requirements into manual test cases, tracking defects, and managing technical documentation.

CORE COMPETENCIES & TECHNICAL SKILLS

- Testing & Tools: Manual Testing (Web/Mobile), Hardware Testing, JIRA, JIRA X-Ray, MongoDB, LifeAsia, BrowserStack, MS Excel, MS Word, MS 365 Copilot, Google Lens.
- AI Utilities: ChatGPT (Deep Research/Canvas), Google Gemini (Gems), Google AI Studio, Gamma, Meta AI, Suno.
- Self-Taught Automation (Non-Work / Online Tutorials):
 - Java Suite: IntelliJ IDEA, Java, Selenium (POM), Cucumber, Appium, ExtentReport, TestNG, ChromeDriver, AndroidDriver.
 - Python Suite: WebStorm, Python, webdriver.Chrome(), webdriver.Remote(), HTML reporting via Python "test_" functions.
 - JavaScript Suite: WebStorm, JavaScript, Selenium-WebDriver, Appium, HTML reporting via test function execution.

PROFESSIONAL EXPERIENCE

PRUDENTIAL | Manual software tester | Jan 2022 to Mar 2025

- Validated core agent apps (Agent/Admin Portal, PRUForce@Pulse, PRUOneExpress) to ensure operational readiness.
- Reviewed JIRA Stories, executed test cases, and queried MongoDB/LifeAsia records to verify system outputs.
- Created Excel test plans, logged steps with screenshots, and uploaded evidence via JIRA X-Ray plugin.
- Logged/tracked defects within JIRA, collaborated with developers, and conducted post-fix re-testing.
- Authored QA knowledge transfer (KT) documentation in MS Word to standardize team testing workflows.

DBS | Manual software tester | Feb 2021 to Nov 2021

- Verified staff loan applications (ARI, SG-IPA, ILMS) per Functional Specification Documents.
- Maintained Word test plans, documented execution steps/screenshots, and tracked bugs via JIRA.

UOB | Manual software tester | Sep 2019 to Sep 2020

- Verified banking applications (MWP, eComm, TMRW, R+CSC, GEB NextGen - HK Release) using Word test plans and JIRA.

CEVA LOGISTICS SOLUTIONS | Logistics assistant | Apr 2026 to Current

- Execute daily picking and packing operations to accurately fulfill customer orders and inventory requests.
- Maintain warehouse organization via proper handling, sorting, and protective packaging of stock items.

CUBE PAYMENT | Logistics assistant | Oct 2025 to Dec 2025

- Tested hardware parameters for UOB (A80/A920Pro/DESK5000/MOVE5000/DX8000) and GPAP (A920) payment terminals.
- Cleared terminal batches prior to sale/void steps and printed settlements.
- Inspected returned hardware for non-voided balances, ran print checks, and reloaded core device software.
- Unpacked corporate stock, verified/rectified deployment stickers, and scanned serial numbers for disposal tracking.
- Managed a 2-day pipeline: prepared terminals on Day 1 and executed functional testing on Day 2 post-configuration.
- Used MS 365 Copilot mobile scan functions to securely capture physical documents into multi-page PDFs.

EDUCATION & CERTIFICATIONS

- National University of Singapore: Bachelor of Computer Engineering, 2019
- BELLS Institute of Higher Learning: WSQ Certificate for Generative AI Application Development and Deployment-1
- Skills Development Academy: WSQ Certificate for Prompt Engineering-2
- OOm Digital, Tech & AI Institute: WSQ Certificate for Content Strategy-4
- Singapore Polytechnic: SP Certificate for Building a Low-Code Application With Generative Artificial Intelligence
